

Hello, I'm **Thanusha**

Aspiring Frontend Developer | Designer | Learner

About Me

I am a frontend developer passionate about building responsive and user-friendly websites. This portfolio showcases my skills, projects, and contact information.

Projects

Weather App

Developed a weather application using OpenWeather API to display temperature and conditions.

To-Do List App

Built a task manager using JavaScript DOM manipulation.

Digital Clock

Developed a live digital clock using JavaScript Date object and styled with CSS.
